The existing wells at the site have multiple identification numbers withn the various agencies. This application will identify the wells in accordance with the DOH numbering system. A cross reference table is presented below:

Well Numbers per Ecology Documents	Well Numbers used by the City	Well Numbers per Department of Health	Well Numbers to be used for future identification
Well No. 1	Well No. 1	SO1	Well No. 1

^{*}Original Well No. 2 (the original source for Water Right G3-23465C) was abandoned and replace with a well that was referred to as replacement Well No. 2 in Ecology records, but was called Well No. 8 by the City. The City has requested that all well numbers coincide with the Heath Department Number, which for this source is SO10 or now Well No. 10 **DOH considers SO6 to be the intertie between Airway Heights and Spokane; the original Well No. 6 has long since been decommissioned.

Certificate has a priority date of December 21st, 1982 and was authorized to withdraw water from six wells (wells 1-5, 7) in a March 23rd, 1998 Change ROE. Well No. 8 (Parkwest well) was added under a Temporary Change Authorization in 2002.

Proposed new points of withdrawals are listed in 9 potential ½ - ½ Sections in the area of Airway Heights. The City is currently evaluating potential land access/use/purchase arrangements to potentially locate one to three wells in one or more of these ½ - ½ Sections. Wells will not be installed in all of these areas identified.

Well No. 9 (Parkwest Well – S09) is being added to certificate in accordance with Agreed Order between City of Airway Heights and Ecology dated September 8th, 2011.

^{***}The Parkwest well, which is referred to as Well 8 in Ecology Documents including the Agreed *Order Docket No. 8703, dated September 8, 2011,* is referenced as SO9 by the Health Department. The City has requested that all well numbers coincide with the Heath Department Number, so this source will now be called Well 9.
